Darling, don't quit your daydream. It's your life that you're making. It ain't big enough if it doesn't scare the hell out of you. If it makes you nervous, it's probably worth it. Living your daydream.

I love when it rains. Perfect excuse to let myself stay in and pretend I have it all under control. I don't know what I'm doing. All I do is notice everything I do wrong. Everything I do wrong. I don't wanna be the reason I'm feeling stuck. Want someone to blame for being messy as fuck. Say I'm alright, know it's not okay to lie. Talk about it but can't put my thoughts into words. What is up with people making me feel worse? I say I'm alright, know it's not okay to lie. I'm fine.

FLY TO THE WORLD

TEXAS, USA

When I was 10th grade in high school, I decided to go study abroad to the US. Since then, I had been studying English really hard to pass the test which must be passed to be an exchange student. I failed few times but eventually I passed. It's time to go to the states! I survived more than 10 hours long long flight and finally made it to the Texas, USA. I was so nervous, afraid, and couldn't even imagine a bit how the life is going to be in a place where I have no people who I know and have only beginner level of language skill. But I didn't need to be worried of anything because I met the most wonderful host parents, sisters, and friends on earth who accepted me as their child, sibling, and best friend. As time passed, my English skill got better and better compare to the beginning. Also I tried many new things that I had never done in my life. As a result of my journey of study abroad in the US, I definitely was able to grow as a person and my passes for the future became more choosable. I am so grateful and can not thank enough to my parents, host family, international sisters, best friends, and all the people that I met in my life. Thank you and love you.

As you can tell from portfolio I am a Harry Potter fan which can be called Potterhead. When my obsession of Harry Potter started? Well, it was earlier on elementary school, as always I was watching the tv with my family and suddenly Harry Potter started. We kept watching it and I was just amazed by the world of Harry Potter. Even now, I still remember how I felt that day. As I grew up, I was able to go to Tokyo to see an Harry Potter act and Harry Potter studio. I'm a forever fan of it.

HERO OR EVIL

Gabi killed Sasha because she thought she was evil. She was stunned when Sasha's friends and family treated her with kindness rather than trying to kill her for what she took from them. Plus, she also learned that there's really no such thing as "good" or "bad" Eldians. The most important lesson in the series is that the world isn't black and white and that there are always shades of grey in between. So even if you are a hero of someone, you could be a completely evil for others.

Harry Potter is a series of seven fantasy novels written by British author J.K. Rowling. The novels chronicle the lives of a young wizard, Harry Potter, and his friends Hermione Granger and Ron Weasley, all of whom are students at Hogwarts School of Witchcraft and Wizardry. The main story arc concerns Harry's conflict with Lord Voldemort, a dark wizard who intends to become immortal, overthrow the wizard governing body known as the Ministry of Magic, and subjugate all wizards and Muggles (non-magical people). You will get to experience the strong friendship and cool actions.

Only the gentle are ever really strong. Dreams come true. You will be alright! Everything happens for a reason. If you're not part of the solution, you're part of the problem. Love is love. Sake it until make it. It's okay not to be okay. How you love yourself is how you teach others to love you. I'm not the whiskey you want. I'm the water you need. Never stop being a good person, just change who receives your kindness. Be proud of who you are. Great power comes with great responsibility. I'll be fine. It takes a fool to remain sane. All our dreams can come true, if we have the courage to pursue them. I'm as proud of what we don't do as I am of what we do. Think different. Always set your dreams high. If today were the last day of my life, would I want to do what I am about to do today? I'm no one's toy no more. I'll be strong one day but not today. Let's laugh. I've seen how it turned. If you're hurt here. You'll never be a happy thought. Don't quit your daydream. I hope you know you're not alone. We can not tonight. Don't ever let them steal you while they can. I have been to the moon ends. There is a light at the end of this tunnel. It means you're here. I'm glad you're not lonely. I promise you got me. I just want happy friends, happy songs, happy love, happy tears. All things work together for good.
